

Certified Validation Report Template, Part A: Provided by Validator

Audit Information

Water System Name: AWA - lone

Public Water System Identification (PWSID)¹: CA0310002

¹List only 1 PWSID, which should match the PWSID on the FWAS Instructions Tab. For Special cases where multiple water systems are connected with permanent two-way interties, list those additional PWSIDs in the **Notes** below and describe the water distribution system(s) configuration.

PWSID and Water System Configuration Notes (Provided to Validator by Water System):

Audit Period: CY2020

Validation Date: 8/11/2021

Sufficient Supporting Documents Provided: Yes

Water System Representatives

Andrea Hinton, Rick Ferriera, Joel Mottishaw

Validation Findings & Confirmation Statement

Key Audit Metrics:

Data Validity Score: 52	Data Validity Band (Level): Band III (51-70)	Real Loss: 77	gal / conn / day
Non-revenue water as percent of cost of operating system: 1.3%		Apparent Loss: 23	gal / conn / day
		ILI: 4.5	

Certification Statement by Validator:

This water loss audit report has been Level 1 validated per the requirements of California Code of Regulations Title 23, Division 2, Chapter 7 and the California Water Code Section 10608.34.

All recommendations on volume derivation and Data Validity Grades were incorporated into the water audit. ☒

If not, rejected recommendations are included here:

Validator Information

Water Audit Validator: Kris Williams

Qualifications: Water Audit Validator Certificate issued by the CA-NV Section of the AWWA

Certified Validation Report Template, Part B: Provided by Utility

Water System Name: AWA- lone

Public Water System Identification (PWSID)²: CA 0310002

²List only 1 PWSID, which should match the PWSID on the FWAS Instructions Tab. For Special cases where multiple water systems are connected with permanent two-way interties, those additional PWSIDs should have been listed in the Notes section on Page 1 by the Validator.

Water Audit & Water Loss Improvement Steps:

1. Steps Taken: Water System to identify steps taken in the preceding 3 years to increase data validity, reduce real loss, and reduce apparent loss as informed by the annual validated water audit:

Metering of all hydrant use for flushing and construction water. Implemented an annual testing protocol for large meter testing of both raw and treated meters. No meters tested in 2018. Meters are 0-20 yrs old. The Agency needs a meter replacement program. Master Plan and rate study forecasted for 2020

2. Certification Statement by Utility Executive:

This water loss audit report meets the requirements of California Code of Regulations Title 23, Division 2, Chapter 7 and the California Water Code Section 10608.34 and has been prepared in accordance with the method adopted by the American Water Works Association, as contained in their manual, *Water Audit and Loss Control Programs, Manual M36, Fourth Edition* and in the Free Water Audit Software version 5.
